

How Is A Baby Sprinkle Different From Baby Shower?

Baby Shower

- A traditional baby shower is a large-scale event with a long guest list
- A baby shower is thrown so that the first-time mom-to-be receives extravagant gifts
- The mom-to-be is also required to share a baby registry

Baby Sprinkle

- A baby sprinkle is a cozy affair and can be thrown with minimal inventory
- It sounds more modern and fun and can be accomplished without spending a fortune
- The guests and the second-time parents can attend it more casually without any baby registry
