# Tips For Teaching *English* To Children

Make it fun
Children learn better when they have fun. There are plenty of English learning games that you can play with your child to teach them the language.

Use a picture book
Introduce your child to colorful picture books to teach them the alphabet, names of animals, objects, and other useful words.

Set a routine
Learning is a continuous process. So, set a routine and practice the language every day.

Provide an immersive experience
Converse with your child in English at home and create an environment that supports their learning process.

Try songs and rhymes
Make the learning more entertaining with music. There is an array of songs and rhymes on the internet to help your child learn new words.
