

Fun Learning Activities

For Your Child

Sensory Exploration With Play Dough

Let the child roll, play, smash, and pull play dough with their hands and tools. It can help them revel in a great sensory experience.

Paper Craft With Origami

A creative indoor activity for children, making different shapes and animals with origami paper, is sure to spark their enthusiasm.

Bake Cookies

Small children can stir, use cookie cutters, and do taste tests. Older ones can even work on a simple recipe under your supervision.

Indoor Picnic

Spread out a picnic mat in the lounge or living room and make a picnic like you would if you were outdoors. Place cushions, and decorate. Your children will love it.

Make Bracelets

Make friendship bracelets by cutting some pieces of wool of different colors. Put the tied end under a heavy book and start designing. You can plait or tie knots.
