

Activities That Children Can Enjoy Playing In CLASSROOMS

Blind artist

Divide the children into pairs and ask one of them to describe a drawing or painting to their partner, who has to draw them without looking at it.

Bleep

Give the children a list of forbidden words. Eventually, make each child read a line of a paragraph that contains the forbidden words. Every time they hear a forbidden word, they have to 'bleep.'

Chain spelling

Children have to take the last four letters of a given word and make a new word with it. The one who cannot form one gets eliminated.

What's missing?

Show a set of four to five cards to the children and then mix up the sequence and remove a card from the set. They have to identify which card is missing.

All about me hats

Give one hat to each child and ask them to decorate it as they want to.
