

## Tips And Tricks

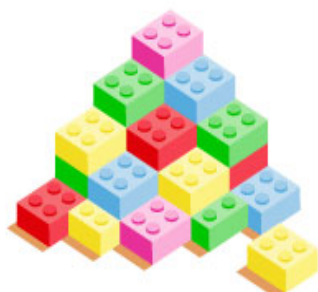

# To Clean, Store, And Maintain Lego Sets

Rinse the plastic Lego pieces with warm water.

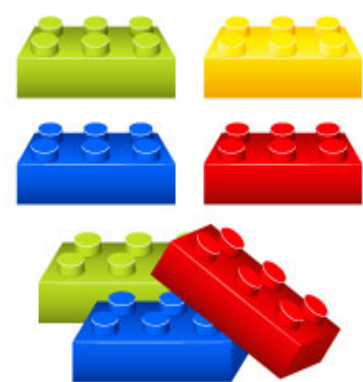

Use a soft brush or cloth to remove tough stains or stickiness.

Dry the pieces in the shade, never under sunlight or with a hairdryer.

Wipe metal-equipped Lego pieces with a cloth soaked in oil-free soap.

Divide the Lego pieces based on color, size, or set.

Place the Lego pieces in clear boxes with lids.

Line the box with a liner or soft cloth to prevent damage.

You can also pack them in food-safe bags for easy portability.
