

# Steps To Use A Food Feeder Correctly

1

Sterilize the feeder before use

2

Cook or boil hard vegetables until soft or cut the fruits into small pieces

3

Remove the skin and seeds of the fruit or vegetable and mash or puree it

4

Open the feeder, stuff in the pureed food, and close the feeder

5

Ensure the feeder is leak-proof

6

After use, hand-wash the feeder for a thorough cleanse
