

## Signs To Know If

# You Love Him

Or

# Are Infatuated With Him

### ♥ It could be an infatuation

- ♥ You behave recklessly to be intimate with him or ditch your plans to spend the night with him.
- ♥ Your need for his attention drives you to show up at his workplace or dress inappropriately in front of people.
- ♥ You feel highly jealous when he talks to other women, even if it is his best friend.
- ♥ You want to rush things and want to move in together without caring if you both are compatible or not.

### ♥ It could be love

- ♥ You are equally attracted to his personality as to his physique.
- ♥ He and your friends have a different place in your life, and you don't prioritize one over the other.
- ♥ You don't try to change yourself for him; rather you feel free to open up and be yourself with him.
- ♥ You take your time to understand him, his likes and dislikes before getting into an official relationship or making big decisions such as moving in together.
