

When SIBLINGS SHARE A ROOM

Pros of sharing a room with a sibling

- ▶ It provides a sense of security, especially at night.
- ▶ It can inculcate the habit of sharing, allowing for a stronger bond between them.
- ▶ They may become more protective and considerate of each other's emotions and feelings.
- ▶ You may notice a decrease in their regular fights or typical sibling rivalry.

Cons of sharing a room with a sibling

- ▶ Lack of personal space can be a problem if the siblings are old enough.
- ▶ If one of the siblings is younger than the other, their different bedtimes and wake-up times can be troubling for the other.
- ▶ If they do not seem to get along, sharing a room or belongings can escalate fights.
- ▶ They may eventually outgrow their space and become fussy and naggy.

Creative decoration ideas for brother and sister shared rooms

- ▶ Use neutral colors such as yellow or green, liked by both boys and girls.
- ▶ Fish, circus, and cartoon themes can be a win-win choice for your son and daughter.
- ▶ Divide and personalize their respective areas well to avoid conflicts and complaints.
- ▶ Try using more photos or artworks for decoration rather than gender-specific items.
