

Types Of Foundation Brushes

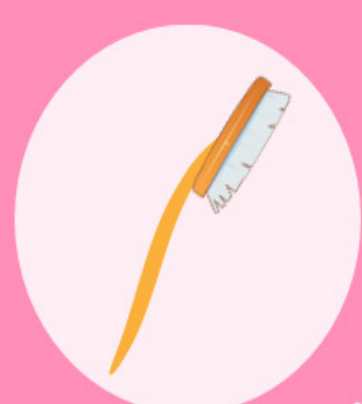

Kabuki

A brush with a short handle and dense bristles for applying powder foundation for light or sheer coverage.

Flat

Often known as a beginner's brush, it is suitable for liquid foundation and helps with full coverage.

Oval

Densely packed with bristles, this brush seamlessly helps you blend the cream foundation.

Powder

Suitable for powder foundation, this brush offers an airbrushed finish.

Angled

Great choice for liquid and cream foundation, this brush offers an even finish and helps cover curves on your face.

Stipple

With a couple of bristle layers and a blunt edge, the stipple brush helps push the foundation on the skin without absorbing the product.
