

Ingredients Beneficial For *Acne-Prone Skin*

Tea tree oil

is ideal for curtailing mild and moderate acne problems.

Vitamin C

helps reduce hyperpigmentation caused by acne inflammation.

Green tea

helps treat acne with its anti-inflammatory properties.

Jojoba oil

features a waxy texture that penetrates pores and dissolves sebum deposits.

Aloe vera

acts as an astringent, tightening open pores and reducing clogging.

Salicylic acid

functions as a peeling agent, effectively unclogging pores.

Benzoyl peroxide

helps treat acne with its antibacterial properties.
