

# These Baby Products May Do More Harm Than Good

## Crib bumpers

May lead to strangulation or make it easier for the baby to crawl out of the crib.

## Baby walkers

May delay the baby's walking and pose a risk of injuries.

## Bumbo seats

May lead to tripping or falling off.

## Soft bedding

(blankets and pillows)

May delay the baby's walking and pose a risk of injuries.

## Bathtub seats

May increase the risk of an infant tipping over during a bath.
