

WHAT ARE THE DIFFERENT KINDS OF Odor Eliminators?

Sprays

Aerosols that quickly mask or remove bad smells from a compact room.

Candles

Continuously emit a pleasant smell to make the room smell fresh.

Diffusers

Spreads the goodness of essential oil as a mist to cover unpleasant odors.

Solid air fresheners

Box-encased freshener spreads fragrance when opened.

Air-purifying bags

Made from bamboo, they keep clothes from smelling moldy.

Plug-in air freshener

Scented gels that get dispersed with the help of heat.
