

Teaching Children **THE THREE Rs** In Their Daily Lives

Reduce waste

Take only as much food as one can eat and serve food and beverage without spilling.

Make the maximum usage of notebooks by using both sides.

Minimize plastic use by using reusable lunch boxes, bags, and bottles.

Reuse items

Reuse gift wrap papers of received gifts for another event.

Make stationeries and bags from cups, containers, and old blankets.

Donate toys and clothes to the needy.

Recycle things

Maintain separate bins for recyclable and non-recyclable items.

Create a compost pit to make natural fertilizer from plant waste.

Encourage children to purchase recycled products as much as possible.
