

Cool Basketball Games For Unlimited Fun

Passing the basketball

Pass the ball among each other along the court without dropping.

Sharks and minnows

Without giving sharks a chance to grab it, dribble the ball among the minnows.

Out

Make the players stand at a distance and give them a chance to put the ball through the basket.

Dribble direction

A good game for players to practice their dribbling skills where they have to move in different directions and maintain eye contact with the coach.

The 1-3-5 game

Another practice game to improve the players' passing skills. Ask players to shoot the ball in the painted area, and give them points accordingly.

Around the world

Just like the game "out," players must put the ball through the basket. But there are spots around the court, and the players must move counterclockwise until they throw the ball from each spot.
