

# IMPORTANT Fire Safety Rules For Children To Follow

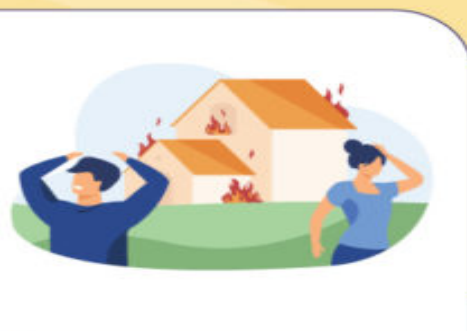

Do not let them play around the fire, combustible objects, or electric cables.

Tell them not to panic during a fire. Keep calm.

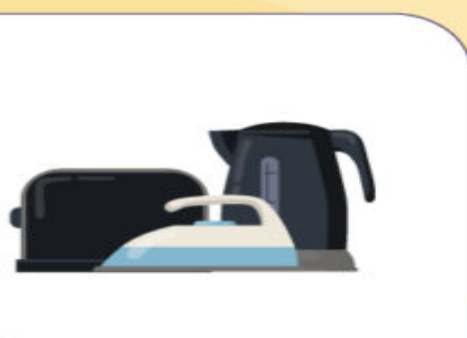

Be attentive to potential smokes and sparks.

Familiarize them with the sounds of fire alarms.

Ask them to report to you or any elders around if they find any smoke or fire in the house.

Instruct them to be at least three feet away from stoves and heaters.

Teach them not to touch any electrical appliances with wet hands or clothes.

Teach them about the emergency exit routes in the house and practice the fire drill plan with them.
