## MONSOON FACTS

### For Children

Monsoon is called the “Return of the Westerlies” in Europe.

---

The season brings thousands of lightning strikes every year.

---

Monsoon storms can be as small as dust storms to violent and disastrous thunderstorms.

---

The rain during this phase is responsible for the growth of a significantly large proportion of Indian crops.

---

Monsoon is the source of livelihood for many countries across the world.

---

The season usually starts on June 1 and ends on September 30.
