

TIPS FOR APPLYING SETTING OR COMPACT POWDER ON OILY SKIN

1

Select a compact powder as per your skin tone and type

2

Dip a kabuki brush, fluffy powder brush, or sponge in the powder.

3

Dust the excess product by gently tapping the brush or sponge on the side of the container.

4

Start from the center of the face and use long dabbing strokes to apply the product.

5

Next, use a sweeping motion to blend the product evenly.

6

Apply another layer of the powder to the oiliest areas, such as the T-zone, under the eyes, and the bridge of your nose.

7

Avoid over-application to avoid a cakey look.
