

# Points To Consider When Selecting Bras For TEENAGERS

The bra should not be tight fitting.

Follow the measuring guidelines  
provided by the manufacturer  
for a precise assessment.

Choose a design based on  
the dresses and activities of  
the teenager.

Opt for breathable fabrics  
for better comfort.

Ensure the washing instructions  
are compatible with your  
cleaning arrangements.

Opt for bras with adjustable  
straps and hooks for a good fit.

As teen girls are in their  
growing stages, a bra that offers  
maximum flexibility in bust  
growth should be preferred.
