

# Tips For Cleaning A Saucer Chair

Untie the cushion from the chair frame

Clean the chair frame with a soft cloth to remove dust.

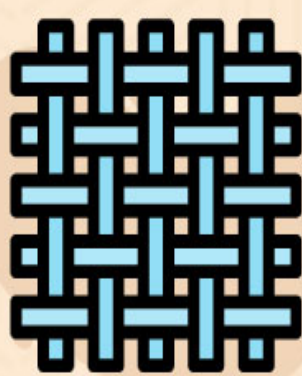

Take 1 cup water and mix  $\frac{1}{4}$  cup liquid detergent.

Clean the stains on the cushion using the solution with a damp cloth.

Gently scrub the stained areas to get rid of them.

Avoid using too much of the solution to protect the fabric.

Let the seat cushion air-dry thoroughly before placing it back on the saucer chair.
