

STEPS INVOLVED IN CLEANING NIKE MESH SHOES

Step 1

Prep the shoes by dusting off loose dirt with a shoe brush.

Step 2

Remove the shoelaces and wash them separately.

Step 3

Stuff the shoes with a shoe tree or crumbled paper to keep them taut.

Step 4

Mix a little bit of mild detergent and cool water in a bowl.

Step 5

Dip a spare toothbrush into the soap solution.

Step 6

Gently rub the toothbrush on the shoe in the direction of the mesh.

Step 7

Proceed to scrub the sides of the shoe, followed by the bottom sole.

Step 8

Wipe off the soapy residue with a clean cloth at least five times.

Step 9

Pat dry the shoes with a cloth and then air-dry them.
