

Tips For Cleaning Portable Hammocks

Remove any dust or crumbs with a soft-bristled brush.

Dismantle the hammock's accessories to ensure a thorough cleaning.

Wash the cloth base with a mild detergent or shampoo.

Remove any tough stains with baking soda and vinegar.

Avoid drenching the metal frame with water to prevent rusting.

Ensure the hammock has thoroughly dried before reassembling or storing.

Hold back from scrubbing the frame or the hammock's cloth with an abrasive brush.

Store it in a cool, dry place or cover it with a tarp.
