

Basic Etiquette To Follow When Having Soup

The outermost spoon on the right-hand side should be the soup spoon.

Hold the spoon sideways.

Always scoop the soup away from you.

Do not overfill your spoon.

Sip the soup from the side of the spoon.

Keep your elbows off the table even if you have to lean a bit forward.

Place the spoon on the plate underneath the bowl between sips.

Place the spoon in the soup if served in a soup plate.
