

Tips To IMPRESS A GIRL While Talking

Try to be the first to strike a conversation and pick an intriguing topic.

Don't force her to talk about a specific topic if she's uncomfortable.

Be patient when she takes time to think and answer.

Let her talk as much as she wants, and don't show any disinterest.

Don't stop at her answer and try to ask questions about it to show you have paid attention.

Be humble while talking about your interests and achievements.
