

Tips To Keep A Shower Mirror Clean And Fog-free

Rub a soap bar on the mirror and wipe it off with a soft cloth before the shower.

Instead of a soap bar, you can also use shampoo or shaving cream.

Run cold water for 30 seconds before changing to hot to reduce condensation.

Keep the windows open for the vapors to dissipate.

Install an extractor fan for dehumidification if there is no window.

Clean the mirror weekly once with equal parts of vinegar and water.

Clean it once a month with an anti-fogging spray.

For a child-safe option, clean the mirror with diluted glycerin.
