

Choosing the right hairstyle

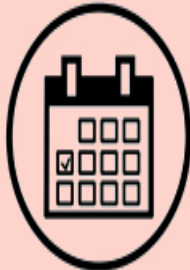

Remember, a good hairstyle should add to your personality and not define it. So let's see how you can pick the one that suits you the best!

Face size and shape

Go for a hairstyle or cut that best accentuates your beautiful facial features.

Event or occasion

Try to match the occasion. If you are going for a sports event or a wedding, a high pony or a braided bun would be a great choice.

Trend

If you like experimenting with the latest fashions, then doing a trending hairstyle can be fun and stylish.

Hair length

Pick a style that will best fit and utilize your hair length.

Hair texture

Pick a hairstyle that goes well with your hair type and stays put without falling apart.

Time

To do the perfect hairstyle or cut, make sure you have plenty of time to get ready.
