

STEPS TO FOLLOW TO ACHIEVE STRAIGHT HAIR

Step 1:

Prep your hair by rinsing thoroughly and conditioning the hair strands.

Step 2:

Rough dry your hair using a blow dryer.

Step 3:

Detangle your hair when the hair is still wet with a wide comb.

Step 4:

Let your hair dry completely.

Step 5:

Divide your hair into sections using clips.

Step 6:

Apply heat protectant spray to your hair strands.

Step 7:

Use low-temperature settings to straighten your sectioned hair.

Step 8:

Never run the straightener on loose hair; instead, hold the hair tightly away from your body.
