

# Tips For Using A Nose Hair Trimmer Efficiently

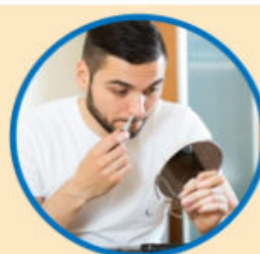

Stand near a light source or in a well-lit room

Remove any debris or mucus by blowing the nose

Moisten the hair to get a better hold

Use a mirror or magnifying glass to get a better view

Switch on the trimmer before insertion to prevent nicks

Make short strokes and move the trimmer in and out of the nostril

Avoid inserting the trimmer deep into the nostril

Empty the trimmer at short intervals to prevent clogging and pulling of hair
