

# Tips For Using Hair Steamers Efficiently

Read and understand the usage instructions thoroughly before use.

Prep your hair by washing it with a moisturizing shampoo.

Remember to apply a deep conditioner before the steaming process.

Use distilled or purified water to prevent mineral buildup in the steamer.

Do not exceed the recommended period of using the steamer.

Post-steaming, discard the remaining water only after it has cooled down.

Do not use the steamer more than twice a month.

Do not use the steamer in the presence of children and pets to avoid accidents.
