

## Tips To Follow

## When Using

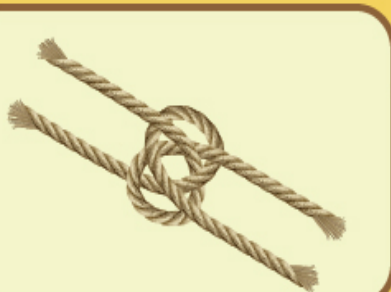

## Hammock Chairs Outdoors

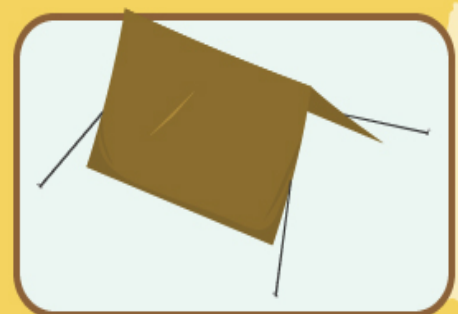

Choose a hanging spot that is six to eight feet from the ground

Opt for a hardwood tree with at least a six-inch thick healthy branch

Tie at least two half-hitch knots to secure the rope properly

Use a knee pillow for ample comfort, especially while napping

Employ a rain tarp to use the hammock on rainy days

Attach a drip line to the hammock suspension to keep it dry during rain

Refrain from eating in the hammock to keep pests away

Deploy a bug net to enjoy the hammock in the evenings
