

Tips And Precautions For Using USB Wall Chargers

Keep the power off or unplug the device when not using it.

Ensure the USB cable is securely connected to the device to prevent any loose connections.

Before unplugging, switch off the device and let it cool down for a few minutes.

Use the charger in a well-ventilated room to avoid overheating.

Hold the charger instead of tugging at it when removing it from the socket.

Dedicate a specific socket for the USB wall charger to avoid overloading.
