

Steps To Apply Vitamin E Oil

Wash your face with water and a mild face cleanser.

Wrap a warm towel around your face for a few minutes to open the pores.

Pour a few drops of Vitamin E oil into your palm.

Incorporate the oil into the skin using a circular motion with your fingertips.

If you have sensitive skin, wash your face after 15 minutes of application.

If you have dry skin, you may leave the oil on your face overnight.
