

# Creative Excavator Toy Activities For A Child

Use it on the beach to play with sand. You may use it as a mini-tool to dig for shells.

Take it to the backyard or garden to dig up the soil. It may be used to teach the basics of kitchen gardening.

Let the child use it to carry and transport small cars and other toys. Use it to explain different types of automobiles to the child.

Organize a mock toy excavators' race. Instill the spirit of healthy competition.

Make a model construction site for an enhanced pretend play session. It can be a significant upgrade from building blocks.
