

Tips To Follow When Shampooing A Baby With A Cradle Cap

Shampoo the baby's scalp regularly.

Follow your dermatologist's recommended shampoo routine if shared with you.

Massage the scalp with cradle cap-safe baby oil before shampooing to loosen the scales.

Use a fragrance-free shampoo.

Gently massage the scalp while shampooing to loosen the scales further.

Carefully remove the loose scales using a comb during the bath.

Do not pick at the scales to avoid discomfort to the baby.

Consult your dermatologist if the symptoms worsen.
