

Tips For Using A Handheld Steam Cleaner

Go through the user's manual before using the cleaner.

Wear shoes and protective gloves.

Use the steam cleaner on objects that can endure high heat and moisture.

Ensure the accessories are properly attached.

Unplug the cleaner before switching the attachments or refilling the water.

Avoid direct steaming plants and electrical fittings.

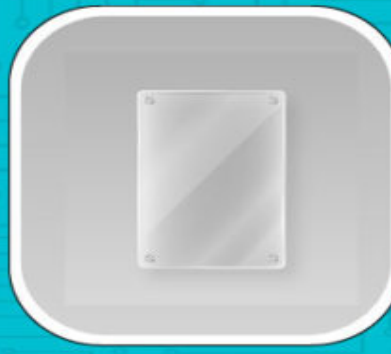

Most steam cleaners may function without detergent.

Use cool steam mode if you need more water content.

Use dry steam mode if you need more heat and less water.

Avoid using it on glass or porcelain objects, especially on a cold day.
