

# SAFETY TIPS

## For Cleaning With BLEACH

Follow the safety instructions provided by the bleach manufacturer.

When diluting, pour the bleach into the water and never the other way around.

Never mix bleach with other cleansing products or chemicals.

Don't drink or smoke when using bleach.

Wear rubber or neoprene gloves.

Wear protective goggles.

Wear non-porous boots and protective clothing like anti-chemical aprons.

Ensure your working area is well-ventilated to avoid inhaling the fumes.

Do not use it on metals.

Use bleach only as a last resort.
