

Tips To Give Your *Wife A Happy*

Start To The Day

Bring her a cup of coffee and plant a kiss on her forehead as you wake her up.

Put the jewelry she's been wanting for a long time near her and give her a morning surprise.

Leave a note on your pillow next to her saying something like "I've cooked your favorite breakfast" or "get ready for the best day ahead" if you have something planned.

Cuddle up and whisper, "good morning, beautiful," with a gentle kiss.

Wake her up with your wedding song and lift her in your arms as you go to the shower together.
