

## Things To Consider For

# Toddler's Birthday Party

## ...Games...

If including food games, avoid marshmallows, chewing gums, and hard chocolates as they carry a risk of choking.

Avoid balloon games as the uninflated parts of balloons could cause choking.

Beware of other choking hazards such as small balls, marbles, craft items, and caps.

When including running games, be careful about the decors and obstacles to prevent injuries.

If having pool games, they must be age-appropriate and played with all safety measures.

Childproof the play zones and ensure there are no chemicals, tools, or breakable, sharp, or explosive objects.

Supervise children at all times and never leave them alone.
