

Signs Of Breastfeeding Problems

While The Baby's Crying

If the baby's crying while breastfeeding is due to breastfeeding problems, then the baby will show the following signs along with crying.

💧 Hungry after feeding

💧 Fall asleep quickly while feeding

💧 Nurse for a very long or very short time

💧 Frequently miss feeding sessions

💧 Not enough soiled diapers

💧 Urine is dark or the stools are hard

💧 Not gaining enough weight and not active
