

DOs AND DON'Ts WHILE WRITING A *Love Letter*

DOs

Take your time and do not hurry the process

Do not be shy while writing about your feelings

Write in your voice, the way you talk to them regularly

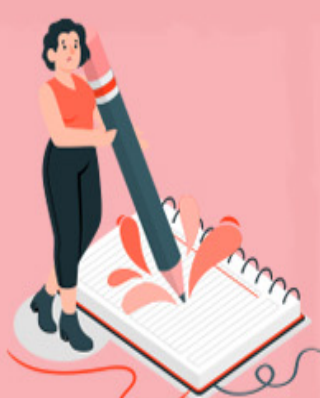

Say "I Love You"

DON'Ts

Do not think that just because you are not a writer, you cannot write a letter

Try not to go over the top to avoid writing things that you don't mean

Don't be afraid to add a little bit of silliness

Do not shy away
