

Points To Remember About Cleaning And Maintaining *Shower Chairs*

Rinse off the soap and dirt residue with a pressure hose.

Clean the chair with warm water, mild detergent, and a soft cloth.

Avoid using harsh cleaners to keep the chair skin-friendly.

Clean hard-to-reach areas with a spare toothbrush.

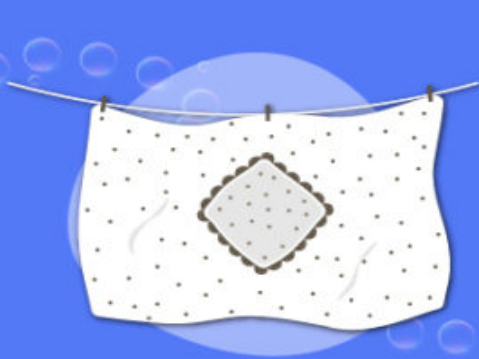

Use a disinfectant spray and a screwdriver wrapped in a towel to clean the holes.

Clean the holes from the bottom side of the seat's surface as well.

Wash the removable fabrics in the washing machine.

Always air-dry fabric segments to prevent germ buildup.

Dry the chair by wiping it with a clean and dry towel.

Avoid storing the chair in the shower to protect it from moisture.
