

Things To Remember About Your CHILD'S VACCINATION

Before Vaccination

See your child's vaccination card to avoid missing the next scheduled vaccination.

Share and discuss your child's medical history with the doctor.

During Vaccination

Take your child's favorite toy for distraction and to calm them.

After vaccination, let your child rest in the doctor's office for 10 to 15 minutes.

After Vaccination

Treat post-vaccination pain and other symptoms as per the doctor's advice.

Avoid using topical lotions and ointments on the injection site unless directed by the physician.
