

Five Types Of **OUTDOOR BLINDS**

External Roller Blinds

keep your outdoor areas cool and comfortable and are retractable when not in use.

External Roof Blinds

protect your patio, deck, balcony, or windows from the sun, wind, and rain.

Awnings

are overhangs that act like interim roofs providing ample shade and sun protection.

Plastic PVC Blinds

can resist heat and moisture to a great extent and offer extended durability.

Bamboo Outdoor Blinds

require less maintenance and are composed of natural materials.
