

Different Types Of BIKE DERAILLEURS

BASED ON THE POSITION

Front derailleurs are affixed to cranksets.

Rear derailleurs are attached to the rear wheel.

BASED ON THE MOUNTING STYLE

Hook-styled derailleurs are ideal for bikes without a derailleur hanger.

Standard derailleurs are ideal for bikes with a derailleur hanger.

Direct mount derailleurs are fixed directly to the frame, eliminating b-links.

BASED ON THE CAGE LENGTH

Short cage derailleurs are ideal for double-drivetrain cassettes.

Medium cage derailleurs are ideal for single-drivetrain cassettes.

Long cage derailleurs are ideal for wide-range cassettes.
