

Essential Supplies For Cleaning Baby Toys

Soap cleaning might only eliminate the surface dirt or bacteria on the toys. You might need to go the extra mile to ensure your baby's toys are clean, safe, and germ-free. Here is a list of essential supplies that you may require.

Mild soap or detergent

Clean cloth or sponge

Hot water

Disinfectant (if the toy can handle it)

Clean and safe place (to dry the toys after cleaning)

Container or basin (to wash the toys)

Brush or toothbrush (for hard-to-reach areas on the toy)

Towel or drying rack (for air-drying the toys)

Gloves (to protect your hands from any harsh chemicals)

Clean storage container or bag (for storing the cleaned and dried toys)
