Buying Guide For
TOYS FOR
18- To 24-Months-Olds

Consider toys with round edges, non-toxic paint, and BPA-free materials.

Avoid toys with small or removable parts that could be a choking hazard.

Toys that can be easily stored away or carried might be suitable.

Toys that require batteries should be used with caution and supervision.

Consider toys with rechargeable batteries for convenience.

Toys of different shapes and colors can develop fine motor skills, hand-eye coordination, and creativity.
