

DO YOUR BIT TO SAVE

THE TIGERS

Be responsible tourists when visiting tiger sanctuaries. Do not disturb their habitat to prevent tigers from fleeing protected areas.

Spread awareness about their endangered status among your friends and family.

Donate to non-profit organizations that strive to stop and prevent poaching and wildlife trade.

Boycott wildlife products and encourage others not to buy products made from tiger skin and bones.

Participate in tiger conservation projects. World Wildlife Fund (WWF), National Tiger Conservation Authority (NTCA) of India, and Wildlife Conservation Society (WCS) are a few bodies that conduct such projects among your friends and family.
